

Communication and Language

This week we will be talking about new starts and the changes that we are preparing for. We will be sharing our hopes for the future and discussing some of the concerns the children might have. We will be looking at alliteration and rhyming words to create our Super hero's names.

Physical Development

On Wednesday the children will be going to St Josephs to take part in our Sports Day. The children will be working on their athletic skills with Ms Pile on Thursday morning.

Personal, Social and Emotion

Due to the weather we didn't manage to make it outside to look at our environment so we are hoping to make it out this week.

Literacy

This week the children will be writing about what type of Super hero they would be and what super powers they would have. The children will be looking at using and in a sentence. They will be re-reading for understanding and editing their own sentences.

Hatchmere Planning

3.7.23

Understanding of the World

Due to the weather we didn't manage to make it outside to look at for mini beasts and bugs in our environment so we are hoping to make it out this week.

Parental Involvement Ideas

In PSHE we are learning about how to respect our environment. In school we are going to do a bit of a litter pick and see how this impacts on our environment. As you are out and about you could look to see if there is any litter and what type of litter it is. Ask your child what they could do about the litter problem.

The children will be exploring some of the stories that Muhammad told to teach people how to be the best they can be

'A sweet friendship refreshes the soul'.

Proverbs 27:7

Mathematics

The children will be composing and decomposing shapes so that they recognise shapes can have other shapes within it, just as numbers can. They will select, rotate and manipulate shapes in order to develop spatial reasoning skills.

The children will be working on number formation and sequence every day.
