

Communication and Language

This week we will be talking about Harvest and collecting words on this topic. The children will be describing the fruits and vegetables that they like to eat. They will also be playing the 'I went the shop and bought...' memory game.

Physical Development

Our fine motor control activity this week is using the scissors. Our gross motor skill will be working on throwing and catching a ball. The children will also continue with their games sessions which they are really enjoying.

Personal, Social and Emotion

The children will be exploring memories. We will talk about our best memories from our families, friends and even school so far. We will explore what makes a good memory - do we remember 'things' or the time we have spent with others?

Literacy

The children will be retelling the story of the Gingerbread Man. They will be encouraged to work as independently as possible to draw pictures sequencing the story and writing simple captions. The children will be learning the sound e,u and r. They will be forming the letters and learning to recognise the sounds in simple words.

Understanding of the World

We are going to look at where Winsford is on our map and the places around us. Hopefully the children will be able to share some of the places they have visited. The children will be look at where all our different fruit and vegetables have come from. We will be exploring how Harvest is celebrated in different countries.

Expressive Arts and Design

The children will be using the fruit and vegetables to print pictures with in the outside classroom. They will be using the farm set to create scenarios and events related to harvest and farming.

Mathematics

In maths we are continuing to work on the children's subitising skills. This is when the children are able to look at a group up to five and instantly recognise the amount without counting. We are looking at comparing amounts and knowing which group has more or fewer. We will be using the scale to show which is heaviest and lightest.

Parental Involvement Activity

As we are looking at harvest this week if you and your child grew and picked anything please email in a picture so we can share it with the class. We are exploring where in the world your fruit and vegetables came from. Have a look at the packaging and see if you can find the country of origin on a map. See how many different countries your food came from. Please feel free to send these labels in with your child so they can share the results of their investigations with the rest of the class.
