

Oakmere Home Learning

Friday 15th March

English

- In English we will be describing the last page of our book which is a Spring picture. In preparation for this we were going to go for a walk around the school and look at the different signs of spring we can see and describe them. The children were going to describe Spring using their sense.
- Please can they write five sentences describing the each sense. This should result in a sentence each about sound, smell, sight, touch and taste of Spring. These sentences should include noun phrase, wow words and possibly the use of similes. All of these terms are familiar to the children and they are very good at using them.

Maths

- In maths this week we are looking at fractions. The children have been comparing fraction. A good source of practice for this area is the website 'maths games'. As you enter the site please choose your childs age group. Please find the link below.
- [Compare Fractions - Year 3 - Practice with Math Games](#)
- This is also an ideal opportunity for the children to spend a bit of time on TTRS. If the children would like to listen to our nine times table song the link is below.
- [9 Times Table Song \(Shivers by Ed Sheeran\) \(youtube.com\)](#)

Computing

- The children were supposed to be doing computing today and we are currently working on our programming skills. We are using the free online platform 'Scratch'. As we have only just started this unit if learning it is an ideal opportunity for the children to go onto the site and experiment with all the different aspects. You do not need to join or sign in, when you get to the home page just click on create. Please find the link below.
- [Scratch - Imagine, Program, Share \(mit.edu\)](#)
