

### Communication and Language

This week we will be talking about the events in our book and sequencing the story. The children will collect words that will help us with our writing next week.

### Physical Development

The children will be continuing to work on their dance skills with Mrs Winder on a Wednesday morning and ball skills on a Monday morning with me.

### Personal, Social and Emotion

This week is Children's Mental Health week and we will be talking about what that means to the children in our class.

### Literacy

In Literacy this week the children will be listening to our Lost and Found story and discuss what is happening. We will be writing labels for our Lost and found office. This week and next week I will be assessing your child's reading level.

### Hatchmere Planning 4.2.19

### Understanding of the World

We will be looking at the similarities and differences between the South Pole and where we live. The children will watch a clip showing a day in the life of an Inuit child and will discuss what they noticed.

### Expressive Arts and Design

The children will be design and making a boat or vehicle to help the little boy get the penguin to the South pole. The children will be talking about floating and sinking and looking at waterproof materials.

### Mathematics

In maths this week we will be counting forward and backwards, making number bonds to nine and looking at doubles. The children will be comparing the heights of objects using non-standard units of measure.

### Parental Involvement Ideas

This week we will be ordering our penguins by height and talking about our own height. Can you look at the height of your family members and discuss who is the tallest and smallest? Who is taller than you and who is smaller? Which one of your toys is the tallest? Is it taller than you? Which toy is the smallest? Can you find three objects taller or smaller than you? Please write down your comment and send it into school where it will be placed in your child's Learning Journal.
