

Communication and Language

This week we will be making comments and asking questions about what we have learnt. The children will think about what they want to learn and what questions they could ask to find out more.

Physical Development

The children will be doing PE in the hall twice this week. They have dance on Tuesday and gymnastics on Wednesday morning. The children will be working on their fine motor control by using scissors and using buttons to make rangoli patterns.

Personal, Social and Emotion

This week we will be talking about how we help each other when we are asked. We will be talking about why we are polite to one another. We will be using our good manners throughout the week.

Literacy

The children will be designing and labelling a contraption that could help the characters in our focus book get the pine-cone out of the water safely. They will then construct their ideas and bring them to life. In phonics we will be looking at the sounds v, w, and y and practising our decoding and encoding skills.

Understanding of the World

As we are looking at the festival of Diwali we will look at where the festival originated from. The children will learn a bit about India culture and geography. We will be talking about the differences and similarities between life in this country and life in parts of India.

Expressive Arts and Design

This week we will be acting out the story of Rama and Sita and learning a Diwali dance. The children will be working with clay to create a diya lamp and using chalks to draw rangoli patterns on our ramp.

RE

In RE we will be exploring the different events that happen in Church. The children will be talking about why Christians choose to go to church. We will be talking about our upcoming visit to church and what we are going to do there.

'A sweet friendship refreshes the soul'

Mathematics

We are going to look at the mathematical concept of part and whole. The children will be exploring what makes an amount whole and what makes it part of the whole. This concept is an important one for children to grasp as it is the building block for addition and subtraction.

Parental Involvement Activity

This week we have explored different areas in Winsford. We have a map where some of these areas are signposted and the children can clearly see where they are situated. For our parent involvement task this week, could you send in a picture of your child at a well-known Winsford landmark/area of interest. These will then be added to our map and will create an area of discussion for the children.
