

Communication and Language

This week we will talking about what the children did during the Christmas holiday. Understand that they need to listen carefully to whoever is talking. They will be asking questions to find out more and to check they understand what has been said to them

Physical Development

The children will be doing dance on Wednesday with Mrs Teece. The children will need their PE kit-please check all the kits fit before returning them to school.

Personal, Social and Emotion

This week the children will be exploring thankfulness. The children will be supported to recognise when and why we should say thank you and its effect on others.

Literacy

The children will be writing simple sentences about what they got for Christmas or what they did with their families. The children will be recapping on all the sounds they learnt last term. They will be encouraged to use these sounds to write and read simple CVC words.

Hatchmere Parents Planning

4.1.21

Understanding of the World

The children will be talking about Christmas and the traditions they observed in their own homes. They will be talking about people who are familiar to them.

Expressive Arts and Design

The children will be drawing detailed pictures of a form of transport of their choice. They will also be making a junk model of their choice looking at joining and building skills.

RE

This week the children will be looking at Baptisms and the different ways we celebrate the arrival of a new baby

'A sweet friendship refreshes the soul'

Mathematics

The children will be recapping on the counting and subitising skills of the previous half term. They will also be looking at one to one counting and the importance of the stopping number.

Parental Involvement Activity

This week we will be introducing the topic of transport. As you are out and about see if you can spot different types of transport. Talk to your child about the different jobs they have and how they suit that job. If you have access to a car or vehicle show your child the engine and talk about how it works. Encourage your child to ask questions and if you don't know the answer perhaps you could research it on the internet together.
