

Communication and Language

We will be working on collecting Autumn words including naming and descriptive words. The children will be using these words to create descriptions of their Autumn finds.

Physical Development

In games with Mrs Pile on Thursday morning the children will be practising our underarm throwing and aiming. The children will be working on creating their own dance moves to Autumn music.

Personal, Social and Emotion

This week we are going to talk about frustration and what the children can do to when they feel angry. We are going to work through some breathing and counting down techniques.

Literacy

The children will be word building with the letters they have learnt so far. We will be sequencing the Gingerbread story and writing (mark making) about the story.

Hatchmere Autumn Planning
19.10.20

Understanding of the World

The children will be bringing in Autumn finds from further afield which we will look at and talk about. We will use this opportunity to talk and compare the different parts of Winsford.

Expressive Arts and Design

We will be making hedgehogs using clay and found material. We will be using the material the children bring in to make a simple collage and explore the texture of our finds.

Mathematics

We will continue to explore numbers to five using action songs, numicon, number blocks and looking at the formation of numbers. We will be looking at measuring and quantifying amounts. The children will be ordering by size, weight and capacity.

Parental Involvement Activity

During half term we would like you to teach your child how to get dressed and undressed by themselves. This includes taking on and off jumpers, pulling on socks, fastening shoes, and putting coats on and off with no help at all just a bit of verbal guidance, support, and encouragement. After half term we will be working on the children fastening their coats by themselves.
